

# NEW TOOLS FOR UTILITY THEFT INVESTIGATORS

## NEW TAP DETECTOR

Works on both energized & de-energized cables.

Quick, simple setup to identify & locate taps, shorts, & faults.

Several modes for locating taps & faults.

Save readings & transfer to PC for storage & printing.

Customize cable settings & setup to meet your territory's conditions. **PN: HJA-510-AC**

## CHECK METERS

- Finds unaccounted for energy usage (theft).
- Measures electric use as accurately as the utility revenue meter.

**THE RAM: REVENUE ASSURANCE METER**  
CHECK METER WITH BUILT-IN WI-FI MAKES IT EASY TO RETRIEVE DATA STRAIGHT TO YOUR LAPTOP.
